

SYSTEM OVERVIEW

Centrally Managed Localised
EV Charging System

MANUFACTURED IN THE UK

SIMPLE TO USE EV CHARGING SOLUTION FOR UP TO 18 EV CHARGING POINTS

The **EV ControlCentre** system has been designed to **centrally manage localised multiple EV charging points from a single control panel.**

This versatile system **allows up to 18 x EV charging points/bays to be managed** from the control panel, offering either **free-to-use or pay-to-use (PAYG)** charging options.

This system has been specially designed to be **similar in operation to a car park ticket machine.** The driver simply parks in the EV charge point parking bay and then, through the **EV ControlCentre**, initiates the electric vehicle charging procedure.

Ideal for single level, multi-level and underground car parks.

A SELECTION OF EV CONTROL CENTRE FEATURES

RFID
Card/Fob

Token
PAYG

On/Off
Security

Can Manage Up To 18
EV Charging Points

Ideal For
Car Parks

Optional EV Electrical
Load Management

SYSTEM BENEFITS

The EV ControlCentre has been designed with the ability to control and manage the various charging units from the Rolec EV product range, including WallPod, SecuriCharge, BasicCharge, Quantum, AutoCharge etc.

The EV ControlCentre is a future-proof system which can be initially installed as a free-to-charge version that can be upgraded at a later date, if required, to accommodate a pay-to-charge solution via either EV GroupManager (RFID) or Token Mech (PAYG).

HOW IT WORKS

This system has been specially designed to be similar in operation to a car park ticket machine. The driver simply parks in the EV charge point parking bay and then, through the EV ControlCentre, initiates the electric vehicle charging procedure.

Manage Up To 18 Charging Points

Available in 6way, 12way and 18way this system can manage a combination of EV charging units from the Rolec EV range.
